

FUTURE OF ASSEMBLY

Our mission is to revolutionize screwdriving in assembly through a truly safe employee-robot collaboration.

We aim to close the gap between humans and robots in assembly lines by introducing innovative and smart collaborative tools that improve working conditions among employees while at the same time increasing assembly quality and output.

With our tools, we provide benefits for both employees and manufacturers.

Let's work together on the future of assembly!

THE FUTURE OF SCREWDRIVING

Insert 6 screws in less than a minute – even in narrow and hard-to-reach spaces

- Visualize your data with Industry 4.0 intelligent software that checks and documents every screw
- The safety shield and the built-in safety sensor enables safe collaboration with employees
- High flexibility with the automatic bit changer for a multitude of screw types
- The tool is easy to set up straight from the box and easy to operate

	SD35	SD70
Bit drive:	1/4"/6.35 mm hexagonal 50mm	1/4"/6.35 mm hexagonal 50mm
Screw capacity	M2-M5	M4-M6
Screw length within full safety	35 mm	35 mm
Torque range:	0.6 - 3.5 Nm	0.4 - 7 Nm
Speed range:	100 - 750 rpm	50 - 375 rpm
Buttons	1x Freedrive button (blue) 1x Configurable button (metal)	1x Freedrive button (blue) 1x Configurable button (metal)
Digital interface	URCap (URSoftware ≥ 5.9) UR scripts Ethernet socket (modbus TCP)	URCap (URSoftware ≥ 5.9) UR scripts Ethernet socket (modbus TCP)
ESD Safe	Yes	Yes
Dimension	52 x 325 x 150 mm	52 x 340 x 150 mm
Weight	2.3 kg	2.4 kg

Accessories

Automatic bit changer

SpinMount

SpinBridge

SpinDispenser

Compatible with
